

## Editorial Program

**CFI 2 / 2012**

(Publication date: **June 5, 2012**)

(Ad closing date: **May 11, 2012**)

**ACHEMA** Preview on new developments

**ITMA Asia + CITME** Preview on new machinery for fiber production, texturing and nonwovens

**Raw Materials** Fibers and Raw Materials Conference (PCI Fibres, Mayfield/England)  
PET feedstocks: market and price trends  
BioMEG (India Glycols Ltd.)  
PTA production trends

**Fibers** Global man-made fiber production  
Global and Chinese market trends for polyester industrial yarns  
Novel luminescent synthetic films and filaments for alarm and security systems (K. Schäfer et al., DWI und ITA at the RWTH Aachen/Germany)  
Melamine fiber – synthesis, features and applications (S. Maity, K. Singha, Panipat Institute of Engineering & Technology, Harayana/India)  
Structure and properties of microporous modified PET fiber (Wang Caihua, Zhejiang Sci-Tech University, Hangzhou/PR China)  
Pilling tendency minimization of lyocell fiber by defibrillation methods (R. Khanum, Daffodil International University, Bangladesh)  
Specialty fibers in sports and leisure textiles (R. Senthil Kumar, Kumaraguru College of Technology, Coimbatore/India)  
Structure and properties of opaque polyester fibers (Ni Wang et al, Donghua University, Shanghai/PR China)

**Fiber Production** Modern methods in fiber analysis for advanced quality control and process development (W. Steinmann, Inst. für Textiltechnik Aachen/Germany)  
S+ for polyester BCF carpet yarns (M. Rademacher, Oerlikon Neumag, Neumünster/Germany)  
Carbon processing with high process validation (K. Müll, Topocrom GmbH, Stockach/Germany)  
Innovation in intermingling (M. Stündl, Oerlikon Neumag, Neumünster/Germany)

**Nonwovens** Global market trends  
Company news

**Buyers' Guide: Fiber Production**
