

# Chemical Fibers International

Fiber Polymers, Fibers, Texturing  
and Spunbonds

**2** May 2010  
Volume 60

## Leader

- 57**     **60 years of fiber publication**  
K. Riggert

## Industry News

- 60**     **Global trends of synthetic fiber markets 2010-2020** N. Bywater  
**62**     **New viscose specialty fibers (Kelheim Fibres)**  
**63**     **Trevira: better polyester business**  
**64**     **Structure of global fiber production 2009**  
**65**     **60th anniversary CIRFS**  
**66**     **Lenzing: viscose capacity expansion**  
**67**     **New cationic-dyeable polyester fiber asota: PA 6 fiber for contract carpets**  
**68**     **Management**  
**69**     **Sandler: higher nonwovens sales**  
**70**     **Positive carbon fiber trends**  
**71**     **Fiber and nonwovens line (Oerlikon Neumag)**  
**72**     **BASF/Elmarco: PESU nanofiber nonwovens**  
**72**     **Oerlikon Neumag: new MB orders**  
**73-76**     **International news**  
**78-80**     **New patents on fibers and fiber technology**

## Raw Materials

- 81**     **Lenzing: dissolving pulp investment**  
**81**     **New lactide investments**  
**81**     **LyondellBasell: emerged from Chapter 11**  
**82**     **Automatik: pelletizing machines for Brazil**  
**82**     **New PET for monofilaments**  
**82**     **DSM: takeover of NPC**  
**82**     **SABIC: advanced PP catalyst**  
**83**     **Kreyenborg: filter for PET recycling**  
**84**     **Lumicene metallocene polyethylene for synthetic turf yarn** R. Luijkx

## Fibers

- 86**     **Producer of PET fibers (Greater Europe)**  
**89**     **PLA fibers: new technical applications**  
B. Krins  
**90**     **Design and development of novel filament with extraordinary ability to absorb water vapor** N. Ucar, E. Beskisiz, A. Demir  
**92**     **Comparative analysis of triangle hollow fiber and round hollow fiber**  
W.-L. Xue, L.-D. Cheng, X.-L. Gao  
**94**     **Torsion fatigue properties of single PBO fiber** X.Y. Liu, W.D. Yu

## Fiber Production

- 96**     **Project list of new polymer and chemical fiber plants 2010 (engineering companies)**  
**102**     **Improvements on godet rolls**  
B. Schmid  
**103**     **Pilot equipment for wet- and gel-spinning processes** A. Desch, F. Laukhardt  
**104**     **Development possibilities in Lahnstein/Germany (Zschimmer & Schwarz)**  
S. Sulzmaier  
**106**     **Structure development of Biofront (PLA) in fiber making process and its applications**  
K. Morishima  
**109**     **Spin finish metering pumps – the quiet revolution**  
N. Anderton  
**110**     **ITMA Asia + CITME 2010: machinery for fiber production, texturing and nonwovens**

## Nonwovens

- 115**     **Structure and property of electro-spinning PAN nanofiber nonwovens by different pre-oxidation conditions** X.-H. Qin  
**59**     **Calendar/Conference programs**  
**120**     **Imprint, Company Index, Advertisers Index**
