- Adivarekar, R.V.**, Sabale, A.G., Teli, M.D.: Mosquito-repellent and fragrant polypropylene.....158
- Baier, H.-D.**, Lewis, D.M., Hawkes, J., Sigmund, H., Schuhmann, M.: New halogen-free solutions for flame-retardant textiles .....122
- Bauder, H.-J.**: ITMA 2011: Trends in weaving.....32
- Bechthold, T.**, Mahmud-Ali, A., Široký, J., Riehl, M., Krüger, M.: Chlorine-free superwash finish of wool – new standard comes to technical reality .....237
- Becker, M.**, Girod, M., Tamoue, F., Haug, R., Kufferath, R.: Integration of textile RFID transponders into garments.....52
- Bhala, R.**, Periyasamy, A.P., Dhandhanian, V.: Enhancing the value of textiles using bio-materials .....176
- Bhatia, K.**, Ranji, P., Saha, B., Malik, V.: Performance and other physical properties of ring and compact yarn knitted rib fabrics.....217
- Burji, M.C.**, Kadole, P.V., Gudiyawar, M.Y., Patil, B.M.: Methods for assessing core-cover yarn properties .....218
- Chaudhari, S.B.**, Patel, B.H., Mandot, A.A.: Nanocomposite: manufacturing and applications in textiles.....188
- Cheng, L.-D.**, Wie, M.-Y., Xue, W.-L.: Properties and structure of compact yarns with lattice apron .....112
- Chougule, S.S.**, Katkar, P.M., Patil, C.A., Khude, P.A., Jain, A.M.: Coir-cement composite.....132
- Ciobanu, A.-R.**: Multilayer weft knitted fabrics – shaping possibilities.....230
- Combes, S.R.**: ITMA Asia comes of age as it continues to tap the region's resilience .....57
- Cruycke, B.**, Pezzoni, D.: New weft monitoring approach.....36
- Cubruc, G.**, Nikolic, G.: Use of reflective optical sensor for fabric detection .....186
- Darji, A.**: Weight reduction process of polyester/viscose woven fabric .....174
- De Meulemeester, S.**: New insertion rules for a new insertion system .....226
- Deodaonkar, S.C.**, Patil, A.J.: Electrically conductive polyester/cotton fabrics to develop technical textiles for innovative application .....16
- Dhandhanian, V.**, Bhala, R., Periyasamy, A.P.: Enhancing the value of textiles using bio-materials .....176
- Drieling, A.**, Hortmeyer, E.: Cotton and man-made fibers – competition or compatibility? .....1
- Eichinger, D.**, Leitner, J.: Cotton blends with Tencel and Lenzing Modal.....155
- Eicken, U.**, Schrick, J., Rabe, M., Mahltig, B.: ITMA 2011: Green, green, green are all of my machines .....38
- El Dean, S.H.**, El Hosamy, M., Shokry, G.M., Mohammed, R.M.: Dyeing and improvement of antimicrobial characteristics of polyester/cotton blend fabrics.....168
- El Hosamy, M.**, Shokry, G.M., Mohammed, R.M., El Dean, S.H.: Dyeing and improvement of antimicrobial characteristics of polyester/cotton blend fabrics.....168
- El-Khatib, H.S.**, Shokry, G.M.: One-bath dyeing of cotton/polyester blend fabrics with chlorophyll dye.....124
- Fraas, R.**: Reduction of spinning costs on compact spinning machines.....116
- Gaffar Hossain, K.M.**, Granher, G., Tzanov, T.: Enzymatic functionalization of protein fibers to confer cationic dye absorption .....45
- Ganesan, P.**, Karthik, T.: Light-weight bio-composites from *Calotropis gigantea* stem fiber.....214
- Girod, M.**, Tamoue, F., Haug, R., Kufferath, R., Becker, M.: Integration of textile RFID transponders into garments.....52
- Gloy, Y.-S.**, Gries, T.: Novel backrest systems and their influence on the weaving process .....222
- Granher, G.**, Tzanov, T., Gaffar Hossain, K.M.: Enzymatic functionalization of protein fibers to confer cationic dye absorption .....45
- Gries, T.**, Gloy, Y.-S.: Novel backrest systems and their influence on the weaving process .....222
- Gudiyawar, M.Y.**, Patil, B.M., Burji, M.C., Kadole, P.V.: Methods for assessing core-cover yarn properties .....218
- Han, C.-C.**, Jing, S.-Q., Xue, W.-L.: Analysis of China's cotton textile industry.....154
- Hanxleden, U.**: New high-performance reactive dyes .....172
- Harbig, R.**: High wash-resistant antimicrobial textile finishing .....179
- Haug, R.**, Kufferath, R., Becker, M., Girod, M., Tamoue, F.: Integration of textile RFID transponders into garments.....52
- Hawkes, J.**, Sigmund, H., Schuhmann, M., Baier, H.-D., Lewis, D.M.: New halogen-free solutions for flame-retardant textiles .....122
- Hayes, E.**: World fiber use increased to 88 million tons in 2011 .....210
- Heinrichs, K.**: Understanding Chinese "takeovers" as an opportunity .....137
- Heitmann, U.**: ITMA 2011: Innovative expertise in spinning engineering.....108
- Hellwich, H.**, Möhring, U., Scheibner, W., Pohlers, S.: Thermal treatment of polyester bands via ultrasound .....48
- Herzig, J.**: Drafting competence.....22
- Hortmeyer, E.**, Drieling, A.: Cotton and man-made fibers – competition or compatibility? .....1
- Jain, A.M.**, Chougule, S.S., Katkar, P.M., Patil, C.A., Khude, P.A.: Coir-cement composite.....132
- Jehle, V.**: Next step towards a maintenance-free drafting system.....24

## Subject Index

## Fibers/Yarns

Analysis of China's cotton textile industry.....	154
Chlorine-resistant elastane .....	5
Coir-cement composite .....	132
Compact yarn – roller drafting parameters and yarn properties .....	27
Cotton and man-made fibers – competition or compatibility? .....	1
Cotton blends with Tencel and Lenzing Modal.....	155
Cotton versus synthetics – the consumer perspective .....	152
Electrically conductive polyester/cotton fabrics to develop technical textiles for innovative application .....	16
Fine denier modal/elastane yarn knitted fabric dyeing process .....	170
Global fiber production: polyester and viscose fiber expansion .....	140

Page

Heat reducing synthetic grass.....	10
India ITME preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens.....	207–209
Investigation of fancy yarn properties considering binder yarn .....	130
ITMA Asia preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	76–107
Light-weight bio-composites from Calotropis gigantea stem fiber .....	214
Methods for assessing core-cover yarn properties .....	218
Micromodal blend with milk fibers for underwear .....	198
Mosquito-repellent and fragrant polypropylene.....	158

Page

New false-twist texturing machine and manual parallel winder .....	157
New universal strength tester.....	26
One-bath dyeing of cotton/polyester blend fabrics with chlorophyll dye .....	124
Properties and structure of compact yarns with lattice apron .....	112
Viscose fibers with improved dyeability.....	211
World fiber use increased to 88 million tons in 2011.....	210
World market trends for false-twist draw-texturing machines .....	213
Wrinkle resistance study of cotton/lyocell blended fabrics .....	54
<b>Spinning</b> Autocoro 8 – more productivity for large orders .....	167

Page

Subject Index	Page	Page	Page
Compact yarn – roller drafting parameters and yarn properties .....	27		
Continued strong recovery in short-staple spinning investments .....	216		
Cooperation on combing machines .....	162		
Drafting competence .....	22		
Effect of machine parameters on apron slippage .....	164		
Foreign matter detection systems .....	110		
Frequency inverter for winder applications .....	166		
Improved package build with anti-patterning control .....	111		
India ITME preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	207–209		
ITMA 2011: innovative expertise in spinning engineering .....	108		
ITMA Asia preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	76–107		
Longest air-jet spinning machine in the world .....	19		
Methods for assessing core-cover yarn properties .....	218		
New application areas for C 70 card .....	160		
New combing machine .....	163		
New direct spin-knit process .....	29		
New false-twist texturing machine and manual parallel winder .....	157		
New steel travelers for conical rings .....	18		
Next step towards a maintenance-free drafting system .....	24		
Performance and other physical properties of ring and compact yarn knitted rib fabrics .....	217		
Properties and structure of compact yarns with lattice apron .....	112		
Reduction of spinning costs on compact spinning machines .....	116		
Reversible spinning rings .....	162		
Textile application competence .....	113		
<b>Weaving</b>			
India ITME preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	207–209		
ITMA 2011: trends in weaving .....	32		
ITMA Asia preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	76–107		
Multirapier technology for woven 3D fabrics .....	146		
New insertion rules for a new insertion system .....	226		
New rapier weaving machine .....	228		
New terry machine for wider range of beach towels and cleaning textiles .....	167		
New weft monitoring approach .....	36		
Novel backrest systems and their influence on the weaving process .....	222		
Web control upgrades for sheeters .....	35		
World: investments in shuttle-less looms +44% .....	220		
<b>Knitting</b>			
Coordinated warp knitting and finishing technology for seamless goods .....	30		
Circular and flat knitting machinery shipments 2011 .....	229		
Fine denier modal/elastane yarn knitted fabric dyeing process .....	170		
India ITME preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	207–209		
ITMA 2011: news from the narrow fabric loom and warp-knitting machinery industry .....	117		
ITMA Asia preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	76–107		
Multilayer weft knitted fabrics – shaping possibilities .....	230		
New direct spin-knit process .....	29		
New lace raschel machines .....	119		
Performance and other physical properties of ring and compact yarn knitted rib fabrics .....	217		
Versatile applications of knitted spacer fabrics .....	120		
<b>Textile Finishing</b>			
Coordinated warp knitting and finishing technology for seamless goods .....	30		
Chlorine free superwash finish of wool – new standard comes to technical reality .....	237		
Dewatering rolls with no need to regrind .....	178		
Drive and control technology to save energy costs .....	184		
Dust-free dye kitchen – modular design and a high degree of automation optimize dyeing processes .....	128		
Dyeing and improvement of antimicrobial characteristics of polyester/cotton blend fabrics .....	168		
Enhancing the value of textiles using bio-materials .....	177		
Enzymatic functionalization of protein fibers to confer cationic dye absorption .....	45		
Even dyeing – high efficiency and low energy consumption .....	233		
Fault marking device .....	184		
Fine denier modal/elastane yarn knitted fabric dyeing process .....	170		
High wash-resistant antimicrobial textile finishing .....	179		
India ITME preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	207–209		
Influencing factors on the gas kinetic dewatering of textiles .....	182		
Innovative calendaring technology for technical textiles .....	241		
ITMA 2011: green, green, green are all of my machines .....	38		
ITMA Asia preview: new machinery for fiber production, texturing, spinning, weaving, knitting, textile finishing and nonwovens .....	76–107		
New halogen-free solutions for flame-retardant textiles .....	122		
New high performance reactive dyes .....	172		
New rinsing process for discontinuous dye houses .....	44		
New stenter for technical textiles and nonwovens .....	47		
New textile screen .....	43		
Next generation of textile inkjet printing .....	42		
One-bath dyeing of cotton/polyester blend fabrics with chlorophyll dye .....	124		
Supercritical CO <sub>2</sub> water-free dyeing and finishing products .....	240		
Thermal treatment of polyester bands via ultrasound .....	48		
Viscose fibers with improved dyeability .....	211		
Water saving for textile production .....	240		
Weight reduction process of polyester/viscose woven fabric .....	174		
<b>Research</b>			
Analysis of China's cotton textile industry .....	154		
Coir-cement composite .....	132		
Compact yarn – roller drafting parameters and yarn properties .....	27		
Digital volumetric imaging of nonwovens micro-structure .....	244		
Dyeing and improvement of antimicrobial characteristics of polyester/cotton blend fabrics .....	168		
Effect of machine parameters on apron slippage .....	164		
Electrically conductive polyester/cotton fabrics to develop technical textiles for innovative application .....	16		
Innovative approach to improve hydrophilicity of polyester by plasma treatment .....	247		

Subject Index		Page	
Integration of textile RFID transponders into garments.....	52	Innovative approach to improve hydrophilicity of polyester by plasma treatment.....	247

Trendbook

# Technical Textiles 2012/2013

Innovations • Trends • Markets

## Technical Textiles in Application

Focus: Sustainability

286 pages, with numerous illustrations, diagrams and tables;  
spiral binding

3-part compendium for daily use

Trend reports • Focus on China

Recognized experts report on future perspectives and offer market prognoses

Company profiles

Supplier products and services from all market segments

European market data

Company data listed in clearly laid out tables (110 pages)
