Subject Index **Page**

Fibers/Yarns

Chemical fiber production (Germany) ... 194
 Company information 16, 207
 Cotton Conference:
 King Cotton in Bremen 72
 Cotton contamination – unchanged
 in comparison to 2007 56
 Cotton demand –
 weighing the consumer factor 136
 Flax output increases (Russia) 58
 German yarn industry 2009 60
 Global fiber consumption 135
 Global yarn and fabric
 production (ITMF) 142
 Global yarn and fabric production
 highs (ITMF) 62
 Nanofibers: strong growth 138
 Organic cotton market +35% 139
 Properties of regenerated cellulose
 (bamboo)-cotton MJS yarns 15
 Technical yarn consumption (USA) 62
 The Fiber Year 2009/2010 53
 Thermal fiber treatment in fiber
 production with application
 in the drawing room process 206

Spinning

Air-jet spinning –
 yarn structure and quality 156
 Brief information 159, 163
 Compact and conventional ring spun
 blend yarns and carbonizing effect 152
 Company information 18, 21, 102-103,
 105, 154-155, 157, 210, 214-215
 Economic machining of Vortex yarns
 to high-quality warp knit fabric 172
 Fiber testing in spinning mills 163
 Modular solution to combat foreign
 matter problems in ginning and
 spinning 100
 New autoleveler drawframe:
 single-head autoleveling quality
 on two heads 104
 New fiber length and strength tester
 for cotton spinning mills 160
 Online positioning system
 for the card 208
 Optimal use of resources with
 compact ring spinning 158
 Optimization of spinning parameters
 in Vortex spinning for economic
 processing on warp knitting
 machines 212
 Recent advancements in
 electrospinning process 17
 Ring yarn qualities for hard-wearing,
 comfort-oriented work clothes
 at higher production 21
 Short-staple spinning investments 151
 Tensile behavior of spun yarns
 under dynamic state 106

Weaving

Automatic sectional warping
 machine 216
 Company information 21, 167, 169
 Energy saving in air-jet weaving using
 computational fluid dynamics 165
 Global weaving machine investments:
 96% to Asia 164
 Leno weave reinforced composites 168
 Reduction of air consumption on
 air-jet weaving machines 218
 Warp preparation machinery for
 cost-effective sizing in denim
 production 23

Knitting

47th IFKT Congress of Knitting Federation:
 Research and Development 176
 Analysis and simulation of yarn
 feeding at high dynamic circular
 knitting machines 220
 Company information 175, 223, 225
 Dynamic analysis of yarn supply at
 circular knitting machines 28
 Dynamic elastic behavior of spandex
 (elastane fiber) plaited cotton
 knitted fabric 108
 Electronic double needle bed warp
 knitting machine 31
 Knitted breathing sensor 222
 Knitted gloves as accessories 32
 Moisture management interlock
 knitted fabrics 224
 Needle-less knitting:
 a rotary knitting principle 26
 Relaxation shrinkage of weft
 knitted fabrics 174
 Shipments of circular and
 flat knitting machines 170
 Ultrafine 15 gauge
 knitting machine 110-111

Textile Finishing

Antibacterial treatments onto
 clothing items 234
 Application of immobilized enzymes
 in finishing treatment of
 reactive dyed textiles 117
 Application of intrinsic conductive
 polymers (ICP) on textile materials 226
 Coating of electrically conductive
 textile structures 42
 Company information 35, 181, 183, 235
 Comparison between yarn pressure
 drying and radio frequency drying 180
 Dyeing of polyester materials without
 oligomer problems 114
 Dyeing of viscose and CV/EL fabrics
 with ultra short liquor ratio 112
 Ecological pre-treatment and dyeing of
 cellulosic fibers with reactive dyes 232

Effects of water quality on dyeing
 behavior of cotton 34
 Environmentally friendly possibility for
 dyeing and finishing of PA/elastane
 warp knitted fabrics 177
 First batch piece dyeing application of
 knitted fabrics 120
 Innovative concepts enable
 cost-conscious production
 of toweling fabrics 48
 Miniaturized standard Ames test for
 the evaluation of textile dyes 229
 Modular denim wet-finishing
 concepts 36
 New combi coater 41
 Plasma processing of textiles –
 perspectives 182
 Recommendations for successful
 continuous finishing of PA/EL tapes ... 122
 Software for optimization of reactive
 dyeing wash-off 124
 Structure-functional relationship
 in silicone softeners 38
 Universal strength tester 41

Nonwovens

Complete nonwovens production
 lines for the world market 189
 Nonwovens for filtration media 242
 Nonwovens technology helping to
 protect beaches from oil spills 241

Textile Industry

After the fair is before the fair 133
 Automated identification and sorting
 of post-consumer textile waste 50
 Company information 238
 Complete nonwovens production
 lines for the world market 189
 Cotton mosquito, repellent fabrics and
 their performance 46
 E-TEAM – European Masters program
 in textile engineering 204
 Improving the efficiency of textile
 machinery with intelligent data
 management 127
 Indonesia:
 Huge investment opportunity 132
 Influence of fusible interlining on
 simulation of bending stiffness 239
 Innovative concepts enable
 cost-conscious production
 of toweling fabrics 48
 Integrating sustainability into the
 sourcing strategies of brands
 and retailers 236
 ITMA Asia + CITME 2010 gets ready 1
 ITMA Asia + CITME 2010:
 preview 74–99
 New quality assurance standards 45
 Photovoltaic applications for textiles 44

Subject Index	Page	Page	Page
Potential applications of lasers in the textile industry.....	128	Photovoltaic applications for textiles.....	44
Structured copolymers – high-performance additives to modify surface properties.....	184	Plasma processing of textiles – perspectives.....	182
The Fiber Year 2009/2010.....	53	Potential applications of lasers in the textile industry.....	128
Research		Properties of regenerated cellulose (bamboo)-cotton MJS yarns.....	15
47 th IFKT Congress of Knitting Federation: Research and Development.....	176	Recent advancements in electrospinning process.....	17
Air-jet spinning - yarn structure and quality.....	156	Reduction of air consumption on air-jet weaving machines.....	218
Analysis and simulation of yarn feeding at high dynamic circular knitting machines.....	220	Relaxation shrinkage of weft knitted fabrics.....	174
Antibacterial treatments onto clothing items.....	234	Ring yarn qualities for hard-wearing, comfort-oriented work clothes at higher production.....	21
Application of immobilized enzymes in finishing treatment of reactive dyed textiles.....	117	Structure-functional relationship in silicone softeners.....	38
Application of intrinsic conductive polymers (ICP) on textile materials.....	226	Tensile behavior of spun yarns under dynamic state.....	106
Coating of electrically conductive textile structures.....	42	Thermal fiber treatment in fiber production with application in the drawing room process.....	206
Compact and conventional ring spun blend yarns and carbonizing effect....	152	Industry News	
Cotton mosquito, repellent fabrics and their performance.....	46	Apparel exports (Vietnam).....	195
Dyeing of viscose and CV/EL fabrics with ultra short liquor ratio.....	112	Brief information.....	4, 6-7, 8-11, 58-64, 68, 70-71, 135, 137-140, 142-144, 146-147, 191-196, 201-202
Dynamic analysis of yarn supply at circular knitting machines.....	28	Chemical fiber production (Germany).....	194
Dynamic elastic behavior of spandex (elastane fiber) plaited cotton knitted fabric.....	108	Company information.....	4-6, 8-14, 56-71, 135, 137-138, 141, 145-149, 191-204
Economic machining of Vortex yarns to high-quality warp knit fabric.....	172	Cotton Conference: King Cotton in Bremen.....	72
Effects of water quality on dyeing behavior of cotton.....	34	Cotton contamination – unchanged in comparison to 2007.....	56
Energy saving in air-jet weaving using computational fluid dynamics.....	165	Cotton demand – weighing the consumer factor.....	136
Influence of fusible interlining on simulation of bending stiffness.....	239	Cotton production 2009/10 and prognosis for 2010/11 (world).....	4
Integrating sustainability into the sourcing strategies of brands and retailers.....	236	Draw-texturing machines: world market trends.....	150
Knitted breathing sensor.....	222	Export share of apparel and textiles (Asia).....	7
Knitted gloves as accessories.....	32	Flax output increases (Russia).....	58
Leno weave reinforced composites.....	168	German yarn industry 2009.....	60
Moisture management interlock knitted fabrics.....	224	Global fiber consumption.....	135
New fiber length and strength tester for cotton spinning mills.....	160	Global yarn and fabric production (ITMF).....	142
Nonwovens for filtration media.....	242	Global yarn and fabric production highs (ITMF).....	62
Online positioning system for the card.....	208	IWTO Market information 2010.....	194
Optimization of spinning parameters in Vortex spinning for economic processing on warp knitting machines.....	212	Management.....	8, 9, 12, 64, 66, 142-144, 146, 196, 198, 200
		Man-made fiber production +7.8%.....	6
		Nanofibers: strong growth.....	138
		New books.....	14, 16, 113, 140, 202, 210, 228
		Nonwovens investment (Vietnam).....	144
		Nonwovens production +26% (PR China).....	11
		Nonwovens production in Europe (Edana).....	138
		Nonwovens sales (Japan).....	195
		Organic cotton market +35%.....	139
		Plus-size apparel: US\$ 17 billion market (USA).....	62
		Recovery in textile machinery exports (Switzerland).....	9
		Recovery of cotton processing.....	58
		Statistical information on man-made fibers (CIRFS).....	191
		Technical yarn consumption (USA).....	62
		Textile industry in 1 st half 2010 (PR China).....	196
		Textile machinery +35 % (Italy).....	202
		Textile machinery imports (Sri Lanka).....	11
		Textile production levels (ITMF).....	6

Editorial Program 2011 Volume 17

Issue	Main Topics
1 March Publication date March 23, 2011	New fiber developments; Global cotton markets; Textured yarns; Spinning/weaving/knitting technologies; Textile floorcoverings; Technical textiles; Dyeing, printing, finishing; Nonwovens; Current market trends
2 May Publication date May 5, 2011	New fiber developments; Techtex 2011 preview; Texprocess preview; Spinning/weaving/knitting technologies; Carpet technologies; Making-up; Dyeing, printing, finishing; Technical textiles and nonwovens; Current market trends
3 August Publication date August 3, 2011	New fiber developments; ITMA 2011 preview; Spinning/weaving/knitting technologies; Dyeing, printing, finishing; Global textile machinery trade; Technical textiles; Making-up; Current market trends
4 September Publication date September 8, 2011	New fiber developments; ITMA 2011: preview on new machinery for fiber production, spinning, weaving, knitting, textile finishing and nonwovens production
5 November Publication date November 25, 2011	New fiber developments; Global fiber markets; Spinning/weaving/knitting technologies; News in dyeing, printing, finishing; Nonwovens; Technical textiles; Current market trends

Technical Textiles 2011

Order now at the premium price of € 149.-!

Innovations • Trends • Markets

Technical Textiles in Applications

Publication date: December 2010

Three-part compendium for daily use

Trend reports and export feature India

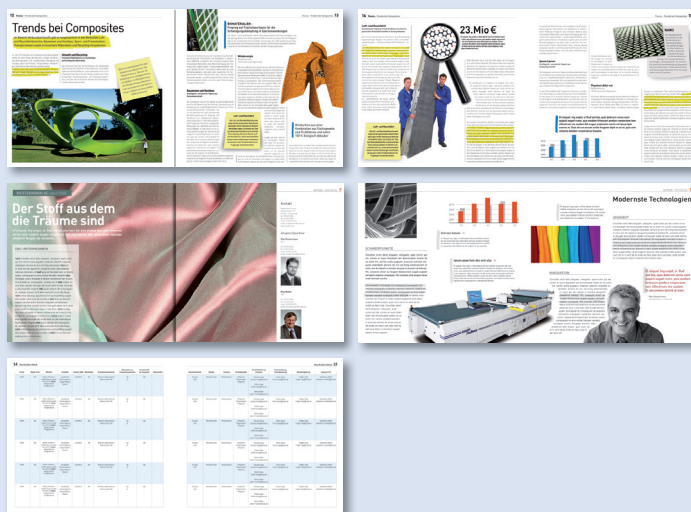

Recognized experts report on future perspectives and offer market prognoses

Company profiles

Products and services from suppliers from all market segments

European market data

Company data listed in clearly laid out tables

Yes, I wish to order ___ copies of the **Trendbook Technical Textiles 2011** at the price per copy of € 149.-*
