

Editorial Program

TT 4 / 2010

Publication date **September 2, 2010**
Ad closing date **August 12, 2010**

Fibers/Yarns Global market trends for industrial yarns
Thermal fiber treatment in man-made fiber technology
(T. Kliezing, ITA Aachen/Germany)
Technical multifilament yarns on various polymer bases
(M. Bongartz, Polyamide High Performance GmbH, Obernburg/Germany)
Viscose fibers with new functional properties
(W. Roggenstein, Kelheim Fibres GmbH, Kelheim/Germany)
Nano-modified PA6 yarns for technical applications (P. Kravaev, ITA
Aachen; I. Hassinger, Inst. f. Verbundwerkstoffe, Kaiserslautern/Germany)
PLA fibers: new technical applications
(B. Kris, API Institute BV, Emmen/The Netherlands)

Technical Textiles Globalization of the technical textiles industry
(L. de Vries, Royal Ten Cate NV, Almeo/The Netherlands)
Tailor-made multifunctional filter media
(J. Altmayer, H. Rösch, Nanogate AG, Götterborn/Germany)
Optimum protection against chemical attacks by hydrolysis, acids and
alkalis (BWF Tec GmbH & Co. KG, Offingen/Germany)
Production of nanoparticles in the finishing of textiles
(M. Rentselkhundev; F. Effenberger, ITCF, Denkendorf/Germany)
Plasma processing of textiles: perspectives
(S. Guimond, Empa, St. Gallen/Switzerland)
Applications of plasma technology in medical textiles
(S. Viju, G. Thilagavathi, PSG College of Technology, Coimbatore/India)
TexSolar – Development of a textile-based dye solar cell
(N. Nickel et al., TITV, Greiz/Germany)
Effect of air-proof surface coating on physical properties of spacer fabrics (F.
Sherif, R.-D. Hund, H. Rödel, ITM Dresden/Germany)

Nonwovens Energy saving in thermal nonwovens processes
(S. Müller, Brückner Trockentechnik GmbH, Leoberg/Germany)
Medical compliant carded nonwovens production
(D. Pirkl, K. Schweizer, M. Raina, T. Gries, ITA Aachen/Germany)
Current market trends

Buyers' Guide: Technical Textiles

Fibers/Yarns, Technical Textiles, Machinery/Accessories
