Technical textiles – automotive textiles

- Automobiles and consumer health – an Oeko-Tex approachE 260
- Bromine- and antimony free coatings for automotive applicationsE 260
- Comfortable car seats: concept for the principle constructionE 178
- Finishing automotive textiles: requirements, trends and new effects.....E 176
- Process chain for the pattern generation of car seatsE 146

Technical textiles – building textiles

- 3D warp-knitted textiles for partitioning rooms.....E 43
- Fiber reinforced polymer composites for constructionE 51
- Innovative textile architectureE 196
- Integrated light protection for museums.....E 46
- Textile buildings – contradiction or challenge for the future?E 127

Technical textiles – medical textiles

- Antimicrobial additive for PVC coated textilesE 265
- Bioresorbable textiles for medical applications.....E 264

Technical textiles – protective textiles

- Cut protection gloves made from TwaronE 55
- Cut-resistant gloves with DyneemaE 244
- Intelligent workwear with RFID technologyE 55
- protective wear fabrics meeting industrial washing requirements (Abstract)E 269
- Simulation and calculation of seamless woven 3D shellsE 180, E 266
- Spunlaced materials in protective apparel.....E 279
- Woven fabric for the protection against molten magnesium splashesE 170

Machinery/Processes

- Antistatic systemE 136
- Binding nanoparticles onto textilesE 184
- Bonding and finishing for spunlace nonwovensE 188
- Bonding of spunlace nonwovens by hot airE 280
- Cabling machineE 27
- Calendering of technical textiles – process optimization possibilitiesE 125
- Carding technology for nonwovens formationE 282
- Coating technologies for functional finishing of yarns and filamentsE 118
- Control module for the processing of nonwovens.....E 193
- Depositing nano-sized coatings by using AS Coating Star cold atmospheric plasma technology.....E 274
- Dielectric measuring method for the determination of evenness and mixing quality of blended nonwovens.....E 191

- Direct warping of heavy glass rovingsE 40
- Drapability of multi-axial materials and the use of laser-transmission weldingE 49
- Dyeing and printing of spunlace nonwovensE 134
- Dynamic modulus testerE 27
- Environment-friendly floorcoveringsE 138
- Extruder for meltblown nonwovens.....E 162
- Improvement of impact properties of glass/PP fiber reinforced compositesE 52
- ITMA 2007 preview: fiber production machinery, machinery for the production of technical textiles, nonwovens machinery.....E 198-230
- ITMA 2007: machinery for technical textilesE 250
- ITMA 2007: nonwovens production technology (Part 1)E 277
- Long range antistatic systemE 173
- Near-net-shape textile preforms made of biaxial reinforced 3D multilayer knitsE 141
- Nonwoven stitch-bonding machines: improvements.....E 194
- Optimization of dryers for the production of fiber composites.....E 31
- Perfect coating by continuous measurement and control of coating and heat treatmentE 132
- Process chain for the pattern generation of car seatsE 146
- Reactive PUR hotmelt adhesives for the textile processing industryE 128
- Reproducible and application oriented tests of net structuresE 268
- Simulation and calculation of seamless woven 3D shellsE 144, E 180
- Techtextil preview: machinery for the production of technical textilesE 80-E 115
- Ultrasonic drum sonotrodes raise productivity levels and reduce wearE 263

Nonwovens

- Bonding and finishing for spunlace nonwovensE 188
- Bonding of spunlace nonwovens by hot airE 280
- Carding technology for nonwovens formationE 282
- Chemical fiber titer program for nonwovens 2007: Western EuropeE 22
- Company informationE 164
- Control module for the processing of nonwovens.....E 193
- Dielectric measuring method for the determination of evenness and mixing quality of blended nonwovensE 191
- Dyeing and printing of spunlace nonwovens.....E 134
- Extruder for meltblown nonwovensE 162

- Fibers for wet-laid nonwovens (Abstract).....E 283
- Functional finishing treatments for technical nonwovens (Abstract)E 267
- ITMA 2007: nonwovens production technology (Part 1)E 277
- Middle East Nonwoven SymposiumE 45
- Nonwoven stitch-bonding machines: improvements.....E 194
- Nonwovens for filtration and technical felts.....E 139
- Nonwovens imports: SwitzerlandE 164
- Nonwovens production – expectations for ITMA 2007E 153
- Nonwovens production: EuropeE 164
- Nonwovens Research Academy.....E 64
- Spunlaced materials in protective apparelE 279
- Spunlaced nonwovens – advantageous alternative for filtration mediaE 186
- Technical nonwovens: global market trends.....E 233

Making-up

- Improvement of impact properties of glass/PP fiber reinforced compositesE 52
- Innovative textile architectureE 196
- Intelligent workwear with RFID technologyE 55

Textile Industry

- 50 years TT: from bast fibers to technical textiles.....E 15
