

Abstract

We will give you a guide you can use by questions, obscurities or by interest.

In the picture at the right side you will see an abstract that appears when you are logged in and click on **“My Textination”**.

Here you are able to administrate the entry of your company yourself. You have a lot of editing possibilities on this site.

From **“Change adressdata”** to chart your proposals and request on the marketplace, you will find everything and you will be able to edit everything yourself.

Depending on the service package the abstract can differ in a few points, for example in the division **“Suppliers A-Z / Marketplace”**.

You will find support to each Point in a short Explanation. The order and layout accord to the display of **My Textination**.

Just click on the menu „help“ at the left side and choose the theme you want to have information about.
