PCMC to bring its Meridian laser anilox cleaner to Labelexpo Europe *Live demonstrations will be held throughout the show*

GREEN BAY, Wis. — Aug. 12, 2019 — Paper Converting Machine Company (PCMC), part of Barry-Wehmiller, will be showcasing its [Meridian laser anilox cleaner](#) at Labelexpo Europe (booth 11C36), held 24 to 27 Sept., 2019, in Brussels. This is the first time the Meridian will be showcased with live demonstrations at this show.

Attendees may visit the PCMC booth anytime to watch as the Meridian quickly deep-cleans anilox cells by using a laser to remove deposited particles inside of the cells. This cleaning technology extends the life of anilox rolls and does not require any chemicals, sodium bicarbonate, polymer beads, water or detergents—making it a sustainable cleaning technology with a very low environmental impact. PCMC’s newest Meridian models are designed for the narrow web market and include a new internal traversing vacuum system.

“We’re very excited to welcome people into our booth to view the new innovations on our Meridian firsthand,” said Rodney Pennings, PCMC’s Printing, Coating and Laminating Sales Director. “I think they’ll be impressed by its technology, speed and effectiveness.”
