## (II) CHINESE COMPANIES

**Zhangjiagang Pukun textile industry Co., Ltd.**, located in zhangjiagang city, the national model city of environment protecting, civilization and sanitation keeping.

Pukun was established on August 8,1992 square meters, the build-up area is 125,000 square meters, and the green-belt is 38,000 square meters. There are over 2,500 employees in Pukun, including 230 technicians. Pukun possesses 280,000,000yuan of fixed assets and 500,000,000yuan of total capital.

Pukun makes herself in the high level and takes the high standards while it was established. Pukun imported the complete set of the first class machines and testing instruments from Italy, Germany, Switzerland, Britain, Japan and USA to form the production scale of 25,000 worsted spindles, hundreds of non-shuttle loom, and a total assembly line of top dyeing, spinning, weaving, finishing. The annual output production ability of Pukun is 6 million meters of "Pukun" brand worsted fabrics.

The key of surviving and developing is quality. The company always pay attention to the quality control according to ISO9002:94. The strictly system of quality guarantee has been established in the company. Pukun takes the "the best quality for per inch pukun worsted fabrics" as her quality principle and working target. The company passed the inspection of China Certification Committee of Quality Certification Center for Mark in May 2000, and got the Certificate of Conformity of Quality System Certification in August 2000.

There are more than 5,000 varieties in products including beige, fancy suiting, doskin, valitin, etc. Concerning the sales market, Pukun has been the regular supplier of the 10 top famous garment factories, such as ShanShan, Younger, Romon in the domestic market. And the company is consolidating the good and further cooperation with these factories. And more, the company developed the relations with many companies which need the fabrics for uniform, such as railway, airway, bank, public security department. At the same time, Pukun is doing efforts to develop the international market. The company use the right of import and export flexibly. Now the products have been exported to many countries, such as Japan, Europe, HongKong. In December 2000, the brand of "Pukun" was honored "The Famous Brand of jiangsu Province".

**Huafang Group** is a joint-stock enterprise specializing in textile with total asset of 5 billion yuan and 1.5 million square meter areas. Huafang Group possesses 6 professional companies and textile products sales company, import and export company, material supply company, pyroelectricity factory, effluent treatment factory, three star grade Hufang Yuan Hotel, and five star grade Huafang Jinling International Hotel and other branches. After several years of rapid development, our comprehensive power and sales achievement rank first in the related fields.

With the international and domestic first class equipments of manufacture and inspection on cotton spinning, woolen spinning, yarn dyed fabric and garment, our group can produce worsted cotton yarn, cotton blend yarn, span spandex yarn, roller yarn, yarn dyed fabric, printing dyed cloth, knitted cloth, worsted wool net, knitted clothes and other textile products and large scale manufacture of copper. Through strict management, we passed ISO14000 Environmental Management Authentication. Our products are named as "China Famous Bran

**Jiangsu Aoyang Industrial Group** is a diversified enterprises group with wool spinning and weaving as its core industry, located in European Industrial Park of Zhangjiagang City. It has 11 sub-companies, one overseas office and one overseas sub-company. Its business scope covers worsted woolen fabrics, garment, chemical fibers, wool yarn, tops, energy developing, printing packaging and international trade. It is one of the largest export bases of woolen products in China.

When it was still the Jiangsu Huafang Group, it was already ranked as National First Scale Enterprise, National Township Enterprises Group, Jiangsu Key Township Enterprise, Jiangsu Star Enterprise, etc.

In 1994, Aoyang Industrial Group invested in the European Industrial Park in joint venture with foreign partners. Aoyang Industrial Group keeps its leading role in the wool industry in China.

Aoyang Industrial Group owns advanced worsted woolen fabrics equipment, including wool scouring, wool carding, wool spinning, weaving and finishing devices. Above 90% of the devices, including advanced inspection devices and CAD systems, were imported from EU or Japan. Every year it develops more than a thousand new products and patterns. Aoyang Industrial Group has a wool supply base in Australia, which provides thousands of tons of fresh pure Australian wool to the Group. Aoyang Industry Group was the first one to pass the ISO9002 Quality Standard Certification in the wool industry in China.

Garment is the key in-depth processing product of Aoyang Industry Group. It specializes in developing and producing formal suits, pants, office uniforms, casual wear, fashion and knitting underwear products. "WUELFING"

brand, a famous European brand that has successfully registered in 15 countries, is the key brand of the Group's garment products.

The Viscose Plant was founded in 1991, engaged in the production of cotton-type and wool-type viscose, which is main material for cotton and wool spinning industry. The capacity of the plant is 30,000 tons every year, ranking in the first class of the viscose enterprises in China.

Wool tops and wool yarns are the major products for export and the sales turnover equals half of the Group's turnover. The tops and yarns are from Yangtse Tops and Yangtse Spinning respectively, which are joint ventures of the Aoyang Industrial Group. Both enterprises have world first class equipment and the total investment surpasses US\$ 150 million. The yearly capacity of the two joint ventures is 10,000 tons and 12,000 tons respectively. Thus, they are the largest wool tops enterprise in China and the largest worsted wool mill in Asia.

Apparel:	400 thousand sets

**Zhejiang Hempel Fashion Co., Ltd** is the main component of Hempel international Group Limited. It is located at the Yaojiang Development Center, 305 Huancheng Road (N) Hangzhou City. Hempel's mission is to develop & license famous international fashion brands & bring them into the China market. Also, Hempel will promote domestic China brands & help establish their market position in the world. Currently, Hempel owns a top shopping center in Hangzhou---Hangzhou Lane Crawford Department Store, which will reopen in September of 2003, two branch offices in Beijing and Shanghai licensing three brands from America, JPR, HAILIVES and Hempel; and it has established strategic partnership with Huili Embroidery and Garment Co., Ltd, which is the largest women's apparel production enterprise in China. As of today, Hempel Group has launched three brands from America, JPR, HAILIVES and Hempel. During the launch, Hempel International Group held a fashion release briefing, and also held a fashion show with all 3 brands' Fall/Winter 2002/2003 collection at the first China International Women's Apparel Exhibition of 2001 West Lake Expo. Again, in March of 2002, at the 10th China International Garment and Clothing Trade Fair in 2002, Hempel group also promoted the brands with Press Release and fashion show in Beijing.

Through two years' development, Hempel has already created its own distribution network, established good cooperating relationship with some famous department stores in Beijing and Shanghai, and successfully got further progress with some chain store enterprises, including Hong Kong Lane Crawford. As a famous retail enterprise,

Lane Crawford will bring in best international brands for Hangzhou Lane Crawford Department Store and make joint management. The brands licensed by Henple will enter all stores if Lane Crawford in China. Through cooperation with Hong Kong Lane Crawford, Hempel will show people a fashionable shopping paradise. Besides, Hempel is about to establish a business network focusing on high and mid ranking department stores and a distribution center, which can radiate nationwide, with Hangzhou at core. In order to provide more opportunity and recognize talented young designers at home and abroad, also to help them succeed in both the China market and the world fashion market, Hempel Group has signed a ten-year support contract with "China Fashion Designers Association" in September, 2002. The Association will hold "Hempel Award China International Young Fashion Designers Contest" annually, as the basis of Brother Cup China International Young Fashion Designers Contest.

Hempel aims to be an envoy to spread international fashion and culture. Besides licensing international famous brands, Hempel also wants to help promote outstanding domestic China brands to the world. It also will develop its own retail business, and set up its own top-quality shopping centers gradually in major cities throughout the country, and establish distribution network besides the business operation of top quality apparel production & distribution.

Even though we still have a long way to go, we believe that the Hempel spirit, which is to capitalize on its strength & utilize opportunities created by others, will lead us into the bright future.

Brand Hempel is one international brand, pursuing simple, elegant, vogue, classical style and quality, coming from the 7th-avenue, New York, which is known as the world fashion center. With the guiding of international costume design fashion, combining traditional extractive craftwork and contemporary high-tech technology, create various business and relaxation combinations with planned care, not exaggerating in pattern, but refinement and classical. This is the characteristic of brand, also one kind of living manner, which is like smooth life but high-quality, simple, non-intentional, having personality and opinion.

Hempel choose carefully the best suit for female upscale materials from internationally popular and natural originally outside materials, making the touch of skin more comfortably; besides it uses dark-night-black, quietness-white, natural rice color and full-bodies coffee as the main keynote, then absorbing some fashion color, release such an independent, experienced and euphemistic new age woman image perfectly. The tailoring line of Hempel is flowing freely, harmonious matched color, easy matching, plus fancies shoes, bags etc. multi-combination, create the spotless serious and complete of the brand itself.

Hempel is willing to provide the most fitting for their expectation costume for metropolitan vogue female aging 25-35. Taking A department in big city and special stores as the main sales distribution channel, using upscale materials, careful craft working, reasonable price and humanity, international management and service is the core competence of brand's strong marketing strategy.

Breathing one fresh air from New York working, understanding the sprit of Hempel. Containing with the information of the fashion city, Hempel will bring its international costume concept, melting female mature and confidence; extend one piece of elegant taste.
