

Editorial Program

CFI 1 / 2019

Publication date: March 29, 2019

Ad closing date: March 7, 2019

- Raw Materials** Wood Mackenzie European Nylon Conference (Wood Mackenzie Ltd., Guilford/UK)
European rPET market (Wood Mackenzie Ltd., Edinburgh/UK)
Renewable carbon is key to a sustainable and future-oriented chemical industry (M. Carus, nova-Institute GmbH, Hürth/Germany)
- Fibers** Carbon fibers from greenhouse gas (TU Munich/Germany)
Current situation with polypropylene tapes (CIRFS, Brussels/Belgium)
Markets for engineered spider silk (Kraig Biocraft Laboratories, Inc., Ann Arbor, MI/USA)
New trends in BCF yarn for automotive carpeting (P. Saragat, Radicofil SpA, Casnigo/Italy)
PVDF nanofibers effectively capturing PM2.5 and releasing anions (Z. Liu, Hebei University of Science and Technology, Shijiazhuang/China)
4th International Glass Fiber Symposium, October 2018 in Aachen/Germany
Dyeing properties of recycled polyester DTY (T. Lu, Donghua University, Shanghai/China)
Sustainable fibers for oil spill clean-up (S. Viju, PSG College of Technology, Coimbatore/India)
Textiles made from flame-retardant PA (DITF, Denkendorf/Germany)
Processing basalt fibers into multiaxial and warp-knitted textiles (T. Bätz, BasaltFaserNetzwerk, Waldenburg/Germany)
Techtextil 2019, May 2019 in Frankfurt/Germany: preview
- Fiber Production** Chinese viscose producer: roadmap to sustainable viscose fiber
State-of-the-art oxidation ovens for the production of carbon fibers (V. Köhler, Eisenmann Thermal Solutions GmbH, Böblingen/Germany)
Energy-efficient and formaldehyde-free coating technology for glass fibers (M. Karnop, A. Abele, Synthomer Deutschland GmbH, Marl/Germany)
- Nonwovens** Global market trends
Preparation & properties of electrospun PBS/meltblown composite filtration materials (Z. Wang, Hebei Univ. of Sci. & Technology, Shijiazhuang/China)
Review of the Vliesstofftage Hof in November 2018 in Hof/Germany
Company news

Buyers' Guide: Fiber Production
