

Chemical Fibers International

Fiber Polymers, Fibers, Texturing and Spunbonds

2 June 2019
Volume 69

Leader

- 57 **When will fiber acceleration come into view?** A.W. Engelhardt

Industry News

- 60 **Lenzing: good results in a challenging market environment**
- 63 **Nanollose: tree-free cellulosic fiber**
- 64 **Indorama Ventures: new Mobility Business Group**
- 65 **Global market overview for aramid fibers**
- 65 **Circularity in European manufacturing**
- 66 **Techtextil Innovation Awards 2019**
- 66-70 **Management**
- 67 **Euratex: steady growth in technical textiles**
- 68 **Dornbirn GFC: sustainability and digitalization**
- 69 **Techtextil: new exhibitor record**
- 72 **Trützschler: new technology center for nonwovens**
- 72 **Sandler: further increase in sales**
- 73 **Freudenberg: challenging year 2018**
- 74 **Nonwovens production in Greater Europe close to 2.8 million tons**
- 75-78 **International news**

Raw Materials

- 80 **Chemtex Global Corporation: new large PET projects in China**
- 82 **Impact of the Xiangshui explosion on the Chinese chemical fiber industry** (Tecnon OrbiChem)
- 83 **Carbios: enzymatic PET recycling technology**
- 84 **Carbon fibers with uniform porous structure using block copolymers** (Virginia Tech)

- 85 **Graphene commercialization: a look back at the story so far** K. Ghaffarzadeh
- 87 **PET recycling: decontamination by means of vacuum during extrusion** U. Thiele
- 88 **K 2019: recycling and circular economy in the focus**

Fibers

- 89 **World fiber production 2018** (The Fiber Year)
- 90 **Global PA fiber market and possible shifts due to high prices for PA 66** A. Sinitisa
- 92 **Sustainable development of viscose** (Collaboration for Sustainable Development of Viscose)
- 93 **Sustainability in the cellulosic fiber chain becomes increasingly important** (Canopy)
- 94 **Comparative analysis of structural properties of PET POY and DTY** Y. Marathe, R. Turukmane
- 96 **Dyeing properties of recycled PET DTY** Lu Tingting, Ji Feng, Zhang Rulyun et al.
- 100 **PVDF nanofibers effectively capturing PM 2.5 and releasing anions** Zhaolin Liu
- 102 **Melt spinning of plasticized biopolymer-blends** P.K. Manvi, T. Gries, R. Dolmans

Fiber Production

- 104 **Spinning rang expansion (SML)**

Trade Fair Reports

- 104-114 **Techtextil review**
- 115-128 **ITMA preview**

- Inner back cover **Advertisers index**
- Inner back cover **Company index / Imprint**
