CFI 3 / 2019

Publication date: September 4, 2019
Ad closing date: August 14, 2019

- Raw Materials** Trends in the Indian polyester chain (Reliance, Mumbai/India)
Lower MEG prices and margins (ICIS)
K 2019 in October in Düsseldorf/Germany: Fair preview
Project list of new polymer and chemical fiber plants 2019
- Fibers** Electrically conductive viscose fiber for smart textiles and smart homes (Y. Zimmermann, TITV, Greiz/Germany)
High tenacity polyester yarn development for offshore mooring (M.B. Bastos, MBB Enterprises, Inc., Orlando, FL/USA)
Flame-retardant polyamides for textile applications (G. Mourgas, DITF, Denkendorf/Germany)
Dornbirn Global Fiber Congress, Sept. 11-13, 2019 in Dornbirn/Austria
Semi-automated geometry-independent determination of the shape factor of noncircular fibers (I. Noll, ITA, Aachen/Germany)
- Fiber Production** Chemical fiber production: What was new at the ITMA 2019? (M. Dauner, DITF, Denkendorf/Germany)
ITMA 2019: Innovations in man-made fiber production (J. Ortega, ITA, Aachen/Germany)
New concepts for the stabilization of carbon fiber precursors under reduced pressure and in tailored atmosphere (M.M. Clauss, centrotherm international AG, Blaubeuren/Germany; E. Frank, DITF, Denkendorf/Germany)
Concepts for novel high-performance/metal hybrid yarns for composites with improved damage tolerance (E. Schmidt, ITM, Dresden/Germany)
ITMA 2019: Innovations in man-made fiber post-processing (L. Debicki, ITA, Aachen/Germany)
BCF system with symmetrical yarn path (Trützschler Man-Made Fibers GmbH, Egelsbach/Germany)
Preparation of TPU electrospun fibrous membranes with cross structure (Rao Lixian, Donghua University, Shanghai/China)
Preparation and antibacterial performance test of electrospun chitosan/PBS nanofibers (Lu Ma, Hebei Univ. of Sci. & Techn., Shijiazhuang/China)
- Nonwovens** Global market trends
Filtech 2019 in October in Cologne/Germany
Nonwovens applications using lyocell short cut fibers for wetlaid-spunlace fabrics (S. Schlager, Lenzing AG, Lenzing/Austria)
