## Chemical Fibers International

Fiber Polymers, Fibers,  
Texturing and Spunbonds

Textile  
Technology

### Volume 58

# Index 2008

## Author Index

| Author Index   | page | Author Index   | page |
|--|------|--|------|
| <b>Almeras, X.</b> , Vandendaele, P., Vannier, A., Duquesne, S., Bourbigot, S., Delobel, R., Ortiz, M., Gupta, G., Pivotto, E.: New halogen free masterbatch for PET fibers .....178           |      | <b>Bhatt, G.M.</b> : Adding value to recycled PET flakes.....223   |      |
| <b>Amantia, D.</b> , Aubouy, L., DelaVarga, M., Paul, R., Bautista, L., Garrido-Franco, M., Garcia-Montano, J., De la Fuente, M.: Eco-technologies for polyester processing (abstract).....169 |      | <b>Blechsmidt, D.</b> , Lindner, R., Erth, H., Brünig, H.: Spunbonded nonwovens made from polylactides for technical applications .....190   |      |
| <b>Anderson, K.</b> , Meenakshisundaram, M.N., O'Regan, D., Khan, H.: Global trends in polyamide fiber for automotive use.....244  |      | <b>Bongartz, M.</b> : New developments for airbag yarns .....98  |      |
| <b>Aneja, A.P.</b> : New developments in polyester fibers (abstract).....166   |      | <b>Bourbigot, S.</b> , Delobel, R., Ortiz, M., Gupta, G., Pivotto, E., Almeras, X., Vandendaele, P., Vannier, A., Duquesne, S.: New halogen free masterbatch for PET fibers .....178                                   |      |
| <b>Aubouy, L.</b> , DelaVarga, M., Paul, R., Bautista, L., Garrido-Franco, M., Garcia-Montano, J., De la Fuente, M., Amantia, D.: Eco-technologies for polyester processing (abstract).....169 |      | <b>Brünig, H.</b> , Blechsmidt, D., Lindner, R., Erth, H.: Spunbonded nonwovens made from polylactides for technical applications .....190   |      |
| <b>Barker, R.H.</b> : Assessing the sustainability of fibers and textiles (abstract).....169   |      | <b>Bullinger, L.</b> : Effect of PAN fibers to binder rich asphalt construction (abstract).....170   |      |
| <b>Barrington, S.</b> : Influence of metering pump efficiency on the economics of fiber quality.....118  |      | <b>Bundi, C.</b> , Bender, K.: New fibers for wet-laid applications .....102   |      |
| <b>Bartl, A.</b> , Marini, I.: Recycling fibers from waste (abstract).....169  |      | <b>Bywater, N.</b> , Collier, D., Nava, C., Lee, R.: Changing trade patterns of man-made fibers and fiber products .....229  |      |
| - Pico, D., Marini, I.: Textile basaltic filaments with future potential (abstract).....169  |      | <b>Cano, F.</b> , Naik, A., Tornero, J.: Electrospun nanofibers and textiles (abstract).....167  |      |
| - Pico, D.: Revolutionary high-performance fiber based on basaltic rock.....240  |      | <b>Canova, T.G.</b> : New bio-active PA fiber for skin care (abstract) .....166  |      |
| <b>Bauder, H.-J.</b> , Planck, H., Schindler, S., Sürth, M.-G.: Investigations into online temperature monitoring for draw-texturing .....184  |      | <b>Cherif, C.</b> , Leopold, T., Waldmann, M.: Novel approach for the manufacture of hybrid yarns for high performance composites (abstract).....169   |      |
| <b>Bauer, R.-U.</b> , Krieg, M.: Cellulose PCM fibers with high functionality (abstract).....166   |      | <b>Cireli, A.</b> , Erdogan, Ü.H., Onar, N., Erdem, N.: Structural and electrical properties of polypropylene nanocomposite filaments (abstract).....167   |      |
| <b>Bautista, L.</b> , Garrido-Franco, M., Garcia-Montano, J., De la Fuente, M., Amantia, D., Aubouy, L., DelaVarga, M., Paul, R.: Eco-technologies for polyester processing (abstract).....169 |      | <b>Clauß, B.</b> , Schawaller, D.: Development of nonoxide ceramic fibers (abstract).....168   |      |
| <b>Bender, K.</b> , Bundi, C.: New fibers for wet-laid applications ..102  |      | <b>Collier, D.</b> , Nava, C., Lee, R., Bywater, N.: Changing trade patterns of man-made fibers and fiber products .....229  |      |
|  |      | <b>Conrad, S.</b> : New melt filtration systems for world scale polymerization lines.....176   |      |
|  |      | <b>Czarnecki, P.</b> , Kulpinski, P., Niekraszewicz, B., Rubacha, M., Laszkiewicz, B.: Lyocell technologies today and in the future (abstract) .....166  |      |
|  |      | <b>De la Fuente, M.</b> , Amantia, D., Aubouy, L., DelaVarga, M., Paul, R., Bautista, L., Garrido-Franco, M., Garcia-Montano, J.: Eco-technologies for polyester processing (abstract).....169                         |      |
|  |      | <b>DelaVarga, M.</b> , Paul, R., Bautista, L., Garrido-Franco, M., Garcia-Montano, J., De la Fuente, M., Amantia, D., Aubouy, L.: Eco-technologies for polyester processing (abstract).....169                         |      |
|  |      | <b>Delobel, R.</b> , Ortiz, M., Gupta, G., Pivotto, E., Almeras, X., Vandendaele, P., Vannier, A., Duquesne, S., Bourbigot, S.: New halogen free masterbatch for PET fibers .....178                                   |      |
|  |      | <b>Demir, A.</b> : Nanofiber applications for automotives: drastic decrease in weight via better noise insulation (abstract).....167   |      |
|  |      | <b>Dolmans, R.</b> , Siegmund, F., Gries, T., Schweizer, M., Gutmann, R., Ruys, L., van Olmen, R., Pascual, J.: Biotext: properties and potentials of biopolymers in textile extrusion applications (abstract).....167 |      |
|  |      | <b>Dortmans, J.</b> : Recent developments in PET and PPS yarns.....37  |      |
|  |      | <b>Duquesne, S.</b> , Bourbigot, S., Delobel, R., Ortiz, M., Gupta, G., Pivotto, E., Almeras, X., Vandendaele, P., Vannier, A.: New halogen free masterbatch for PET fibers .....178                                   |      |
|  |      | <b>Engelhardt, A.</b> : Global chemical fiber production +8% .....70   |      |
|  |      | <b>Erdem, N.</b> , Cireli, A., Erdogan, Ü.H., Onar, N.: Structural and electrical properties of polypropylene nanocomposite filaments (abstract) .....167  |      |

## Raw Materials: General

- Bacteria can be made to spin fiber silk...95
- Brief information .....12, 24-26, 90-92, 152, 211, 220-222
- Company information .....24-26, 90-92, 152, 211, 220-222
- EATP Seminar: polyolefin textiles .....97
- EG based on cellulose .....220
- Extrusion and Polymerization Conference .....157
- Fiber raw material production India .....92
- Heat-resistant biopolymer .....12
- Index 08: polymers and fibers for nonwovens .....73
- Ionic liquids for industrial applications .....91
- MPC polymers having skin barrier efficacy for textiles and nonwovens .....93
- PE polymers for artificial turf .....6
- Polyolefin LMPO for elastic nonwovens .....90
- Post-polymerization in solid state of modified PA 66 prepolymers .....226
- Potentials of biopolymers for the production of chemical fibers .....29
- PTT – innovative polymer and its application in textiles .....155
- Spider silk as basis for innovative materials .....204
- Raw Materials: PET**
- Adding value to recycled PET flakes .....223
- Brief information .....88, 152
- CC-PET direct crystallization .....220
- China Intern. Recycled PET Conference .....239
- Company information .....88
- Copolyester for microfiber nonwovens .....88
- Global market trends for PET recycling ...76
- PET and Intermediates Conference .....156
- PET Recycling Forum .....154
- PET recycling forum in Moscow .....26
- PET recycling technology conference in China .....152
- Zimmer two reactor process .....96
- Raw Materials: PP**
- Metocene resin for PP microfibers .....25
- PP market study .....154
- PP polymers for nonwovens .....90

**Fibers / Yarns: General**

- Artificial grass: new market study.....77  
 Changing trade patterns of man-made fibers and fiber products .....229  
 Chemical fiber production (world).....70  
 Chemical fiber titer program for nonwovens (Western Europe) .....58  
 Company information .....174  
 Dyneema Purity for implants .....77  
 Fiber Table: Bicomponent fibers (Part 1) .....38  
 Fiber Table: Bicomponent fibers (Part 2) .....158  
 Fibers for wet-laid applications .....102  
 High-performance fiber based on basaltic rock .....240  
 HMT fiber for filtration.....75  
 Index 08: polymers and fibers for nonwovens .....73  
 India fiber story .....48  
 New developments in fibers: abstracts of the lectures at the Dornbirn Man-Made Fibers Conference.....166  
 Photodegradation of high-performance aramid fibers .....46  
 Tanlon PSA fibers for flame- and fire-resistant textiles .....237  
 Temperature regulating fiber and seaweed functional fiber.....104  
 Textile polyolefins: European market trends .....6  
 Thermal degradation of PBO and Kermel fibers.....242  
 Thermal properties of acrylonitrile based casein fibers .....34  
 Twaron seminar .....101  
 Vectran LCP fiber: new developments ..231

**Fibers / Yarns: Cellulosic**

- Cellulose fiber research .....197  
 Cellulose multi-component fibers from ionic liquids .....234  
 Gelling fibers from cellulose, chitosan and alginate .....30  
 Melt-spun thermoplastic cellulosic fibers .....33  
 Novel cellulose fibers: structure and properties .....171

**Fibers / Yarns: PA**

- Airbag yarns - new developments .....98  
 European Nylon Symposium.....119  
 Nylon symposium in Germany and USA .....45  
 PA Chain 2008 .....173  
 PA fiber for automotive use: global trends .....244  
 Role of fibers within the global nylon business .....65  
 What role do PA end products play compared to PET?.....246

**Fibers / Yarns: PET**

- Brief information .....33  
 China Intern. Recycled PET Conference .....239  
 Global market trends for PET recycling .....76  
 Innovative artificial turf backing .....36  
 PET and Intermediates Conference .....156  
 PET and PPS yarns: recent developments .....37  
 PET chain conference in Frankfurt .....76  
 Polyester & PET Chain 2007 .....51  
 Trevira yarn developments for home textiles.....9  
 What role do PA end products play compared to PET?.....246

**Fibers / Yarns: PP**

- Microfiber Dryarn with dermatology certificate .....75  
 PP market study .....154

**Fiber Production**

- Automatic linear-density and tensile testing on carbon fibers.....248  
 Chemiluminescence-analysis of aging behavior of PA filament yarns .....52  
 Company information .....246, 250  
 Effect of wet heat treatment on crimp properties of PTT/PET self-crimp fibers.....182  
 Godet rolls for BCF.....55  
 Growing demand for engineering know-how.....116  
 Halogen free masterbatch for PET fibers .....178  
 Influence of metering pump efficiency on the economics of fiber quality.....118  
 ITMA Asia + CITME preview .....120-124  
 Just-in-time spin-finish preparation plant.....250  
 Machinery exports Japan .....211  
 Melt filtration systems for world scale polymerization lines.....176  
 Nano-particle additives in PET fiber spinning.....112  
 New developments in fibers: abstracts of the lectures at the Dornbirn Man-Made Fibers Conference.....166  
 Pressure and temperature sensors .....57  
 Project list of new polymer and chemical fiber plants 2008 (engineering companies).....105  
 Spin finish for spunlace process.....56

**Texturing**

- Online temperature monitoring for draw-texturing .....184  
 PET/PA blended air-jet textured yarns: physical properties.....252

- Simulation of staple fiber kinematics in turbulent air stream .....188

**Nonwovens**

- Brief information .....61  
 Chemical fiber titer program for nonwovens (Western Europe) .....58  
 Company information .....61  
 Copolyester for microfiber nonwovens.....88  
 Directly-formed cellulose webs.....255  
 Fibers for wet-laid applications .....102  
 Future of spunbond and meltblown technologies .....133  
 Index 08: polymers and fibers for nonwovens .....73  
 ITMA Asia + CITME preview .....124-126  
 MPC polymers having skin barrier efficacy for textiles and nonwovens.....93  
 Polyolefin LMPO for elastic nonwovens.....90  
 PP polymers for nonwovens.....90  
 Spin finish for spunlace process.....56  
 Spunbonded nonwovens made from polylactides for technical applications .....190  
 Structure comparison between PVA nonwovens and crosslinked PVA nonwovens by electrospinning.....127

**Research**

- Bacteria can be made to spin fiber silk .....95  
 Cellulose fiber research .....197  
 Cellulose multi-component fibers from ionic liquids.....234  
 Chemoluminescence-analysis of aging behavior of PA filament yarns.....52  
 Effect of wet heat treatment on crimp properties of PTT/PET self-crimp fibers.....182  
 EG based on cellulose .....220  
 Gelling fibers from cellulose, chitosan and alginate .....30  
 High-performance fiber based on basaltic rock .....240  
 New patents on fibers and fiber technology .....22, 23, 86, 87, 150, 151, 218, 219  
 Novel cellulose fibers: structure and properties .....171  
 Online temperature monitoring for draw-texturing .....184  
 PET/PA blended air-jet textured yarns: physical properties.....252  
 Photodegradation of high-performance aramid fibers .....46  
 Post-polymerization in solid state of modified PA 66 prepolymers.....226  
 Potentials of biopolymers for the production of chemical fibers .....29

**Chemical Fibers International**  
Fiber Polymers, Fibers, Texturing and Spunbonds

## Editorial Program 2009

**Volume 59**

| Issue   | Main Topics   | Conferences/Trade Shows   |
|---|---|---|
| <p><b>1 March</b><br/>Publication date<br/><b>March 18, 2009</b></p>        | <p>Industry news; New fiber patents; Fiber raw materials; Cellulosic fibers; PET &amp; PP fibers; Elastic fiber developments; Textured yarns; Nonwovens technologies</p>        | <p><b>Polyamide Chain 2009</b>, March 23/24, 2009, Zurich/Switzerland<br/><b>20<sup>th</sup> Int. Flock Symposium 2009</b>, March 30/31, 2009, Berlin/Germany</p>   |
| <p><b>2 May</b><br/>Publication date<br/><b>May 6, 2009</b></p>             | <p>Industry news; New fiber patents; Fiber raw materials; Polyamid fibers; Fibers for nonwovens; AICHEMA 2009 preview; Techtex 2009 preview</p>                                 | <p><b>EATP Spring Conference</b>, May 11/12, 2009, Madrid/Spain<br/><b>Achema 2009</b>, May 11-15, 2009, Frankfurt/Germany<br/><b>Techttextil &amp; Avantex 2009</b>, June 16-18, 2009, Frankfurt/Germany</p> |
| <p><b>3 September</b><br/>Publication date<br/><b>September 3, 2009</b></p> | <p>Industry news; New fiber patents; Fiber raw materials; Technical fibers; Global fiber market; Fiber technology; Project list chem. fiber plants; Nonwovens technologies</p>  | <p><b>Man-Made Fibers Congress Dornbirn</b>, Sept. 16-18, 2009, Dornbirn/A<br/><b>PEPP 2009 – PE &amp; PP Chain</b>, Oct. 13-15, 2009, Zurich/Switzerland</p>   |
| <p><b>4 December</b><br/>Publication date<br/><b>December 3, 2009</b></p>   | <p>Industry news; New fiber patents; Fiber raw materials; Synthetic fiber specialties; PP fiber technology; spin finishes; Texturing technology (machinery, yarns, markets)</p> | <p><b>Polyester Chain 2009</b>, December 9-11, 2009, Zurich/Switzerland</p>   |
