Subject Index

Jute productionE 4
 Melt-electrospinning of
 nano-nonwovensE 242
 Monofilament exports: EU-27E 196
 Monofilaments for
 medical applicationsE 49
 Natural fibers for technical textilesE 155
 PA tire yarn shipments: USAE 236
 Pilot and laboratory equipment
 for technical materialsE 52
 Polyamide fiber for automotive use –
 global trendsE 10
 Polylactic acid fibers:
 biomedical applicationsE 245
 PP filament yarns: RussiaE 44
 Pressure and strain sensors based on
 electrically non-conductive
 Novonic yarnsE 174
 Project FloW for fiber machineryE 241
 Rotary filters for purification and
 value addition in processing
 of polymer meltsE 48
 R-PET consumption: worldE 43
 Spunbond nonwovens with crimping
 ability – process developmentE 244
 Synthetic industrial yarn –
 global market trendsE 154
 Technical fibers and textiles – trends ..E 151
 Temperature and ventilation control
 with Trevira CS BioactiveE 118
 Textile polyolefins – European
 market trendsE 1
 Yarn shipments: USAE 4

Technical Textiles

3D stitching of preformsE 260
 Adhesives for membrane lamination ..E 178
 Application process for printing
 mPCMs onto flat fabricsE 20
 Automated production of rotor blades
 for wind energy plantsE 26
 Bragg fibers in technical textilesE 18

Page

Coating of electrically conductive
 textile structuresE 266
 Coir fiber products in environmental
 erosion and sediment control
 and restorationE 262
 Coldback protection from UV raysE 56
 Colonization of textile implants
 with human stem cellsE 248
 Conductive structures to optimize
 antistatic textiles (Part 1+2)E 24, E 57
 Conductive tapes suitable
 for bucklingE 61
 Cotton mosquito repellent fabricsE 249
 Distance fabrics and multiple layer
 weaves in technical textilesE 128
 Dornbirn abstracts: Fibers for medical
 and hygienic textilesE 165-E 171
 Dry preforms for complex geometrical
 composite structuresE 254
 Effect-based test method for allergens
 in textilesE 182
 Electronic double needle bed
 warp knitting machineE 252
 Filter medium production –
 efficiency increaseE 187
 Flame and heat protection textilesE 247
 Functional fabricsE 172
 High-performance spacer fabrics
 with orthogonal 3D structureE 137
 High-speed and complete inspection
 of precision screensE 120
 High-tech anti-skid protection
 for tiresE 31
 High-tech narrow textilesE 119
 Hot melt adhesives in electrostatic
 flocking of plastic compositesE 134
 ISO standardization of a test method
 for cleanable filter mediaE 116
 JEC Composites ShowE 28
 Knitted structures in medical textilesE 60
 Large-area smart textilesE 188
 Lenzing FR for protective hoodsE 172

Page

Machines for warp-knitted
 multiaxial constructionsE 59
 Medical applications of
 electrospun nanofibersE 16
 Moisture management
 in workwearE 272
 MultiSphere – industrially mature
 technology for "woven" ropesE 132
 Natural fibers technologies
 for construction materialsE 264
 Personal protection fabricsE 248
 Plasma process for hydrophobization
 of surgical textilesE 142
 Polyamide fiber for automotive use –
 global trendsE 10
 Pressure and strain sensors based
 on electrically non-conductive
 Novonic yarnsE 174
 PTFE membrane for textile
 filter mediaE 175
 Segmented weft-inserted fabrics
 for sun protection textilesE 247
 Self-strengthening PP compositesE 181
 Software for quality and
 productivity improvementsE 268
 Spacer circular knit fabrics
 with specific physical propertiesE 126
 Stitches and loops as linking
 elements for textile and
 non-textile materialsE 140
 Tarpaulins – improvement of
 tear propagation resistanceE 257
 Techtextil previewE 86-E 112
 Temperature and ventilation control
 with Trevira CS BioactiveE 118
 Textile lamination –
 product solutionsE 176
 Textile reinforced rubber components
 with increased heat dissipationE 256
 Textile solar light collectors –
 conductive structures to optimize
 antistatic textiles (Part 1)E 22

Editorial Program 2010

Volume 52

Issue

Main Topics

1 FebruaryPublication date
February 26, 2010Technical fibers/yarns; PA fibers/yarns; Composites;
Nano functionalized textiles; Mobile & building textiles;
Protective clothing; Technical nonwovens; Textile filters**2 April**Publication date
April 21, 2010Technical fibers; PP fibers/yarns; Euroseil; Medical textiles;
Work and protective clothing; Geotextiles; Smart textiles;
Finishing of technical textiles; Technical making-up**3 June**Publication date
June 2, 2010Polyester fibers/yarns; Technical fibers; Mobile textiles;
ITMA Asia + CITME preview; Building textiles; Geotextiles;
Technical nonwovens, Industrial textiles; Technical making-up

Issue

Main Topics

4 SeptemberPublication date
September 2, 2010Technical fibers; Industrial textiles; Building textiles;
Preview: Man-Made Fibers Congress Dornbirn; Euroseil;
Sportswear; Filter technology; Technical nonwovens**Special Edition 2010 (Issue 5/2010)**Published by **Technical Textiles / Technische Textilien**
Publication date: **October 30, 2010****6 December**Publication date
December 14, 2010Cellulose fibers; Polyester fibers; Technical textiles;
Medical textiles; Technical knits; Flame-retardant textiles;
Nonwovens technology; Technical making-up

Subject Index	Page	Page	Page
Textile structures with tailor-made properties	E 122		
Textiles for solar technologies	E 233		
Textiles release medicinal gases.....	E 187		
Ultra-lightweight ergonomic seat system.....	E 56		
Wash-resistant dust mite protection.....	E 189		
Weaving of aramid fibers	E 53		
Weft knitted spacer fabrics as pressure sensors	E 124		
Wheelchair system with increased comfort.....	E 54		
Machinery / Processes			
3D stitching of preforms	E 260		
Automatic positioning system for quality certificated production of ballistic protective clothing	E 146		
Distance fabrics and multiple layer weaves in technical textiles.....	E 128		
Dosing equipment for spunbonds	E 55		
Effect-based test method for allergens in textiles.....	E 182		
Electronic double needle bed warp knitting machine.....	E 252		
High-speed and complete inspection of precision screens	E 120		
ISO standardization of a test method for cleanable filter media	E 116		
Laser cutting and engraving of textiles.....	E 148		
Machines for warp-knitted multiaxial constructions	E 59		
Measuring of length and speed in nonwovens lines	E 15		
Melt-electrospinning of nano-nonwovens.....	E 242		
MultiSphere – industrially mature technology for "woven" ropes.....	E 132		
Natural fibers technologies for construction materials	E 264		
Pilot and laboratory equipment for technical materials.....	E 52		
Plasma process for hydrophobization of surgical textiles.....	E 142		
Rotary filters for purification and value addition in processing of polymer melts.....	E 48		
Speedometer for surfactants.....	E 139		
Weaving of aramid fibers	E 53		
Wet-laid process – opportunities and possibilities for new products (Part 3)	E 144		
Nonwovens			
Automotive applications for nonwovens in acoustic parts.....	E 29		
Brief information	E 6-E 7, E 46-E 47, E 158-E 160, E 199-E 200, E 238		
Company information	E 6-E 7		
Cotton nonwovens: Japan.....	E 83		
Effect of carbonization temperature on the structure of carbon nanofiber nonwovens by electrospinning	E 34		
Feasibility study of spunbond plants	E 62		
Global nonwovens markets 2012.....	E 238		
Global spunbond capacity 2009.....	E 158		
High filtration efficiency spunlaced filter media in plates press filter	E 64		
Measuring of length and speed in nonwovens lines	E 15		
Melt-electrospinning of nano-nonwovens.....	E 242		
Nonwovens fiber shipments: USA.....	E 236		
Nonwovens production: PR China.....	E 160		
Spunbond nonwovens with crimping ability – process development.....	E 244		
Spunlace capacity 2009.....	E 240		
Surface modification of PP nonwovens	E 270		
Table linen made from spunbond nonwovens	E 63		
Wet-laid process – opportunities and possibilities for new products (Part 1-3)	E 32, E 66, E 144		
Technical Making-up			
Automatic positioning system for quality certificated production of ballistic protective clothing	E 146		
Connection technology	E 273		
Intelligent sewing and embroidery yarns	E 69		
Laser cutting and engraving of textiles.....	E 148		
Laser processing system for large-sized materials	E 272		
Overlap-free joining of semi-finished textile products.....	E 68		
Processing technologies for technical textiles at IMB 2009.....	E 39		
Research			
3D stitching of preforms	E 260		
Automated production of rotor blades for wind energy plants.....	E 26		
Automatic positioning system for quality certificated production of ballistic protective clothing	E 146		
Bragg fibers in technical textiles.....	E 18		
Coating of electrically conductive textile structures	E 266		
Colonization of textile implants with human stem cells.....	E 248		
Conductive short fibers in elastomer materials.....	E 12		
Conductive structures to optimize antistatic textiles (Part 1+2).....	E 24, E 57		
Cotton mosquito repellent fabrics	E 249		
Dry preforms for complex geometrical composite structures	E 254		
Effect of carbonization temperature on the structure of carbon nanofiber nonwovens by electrospinning	E 34		
High-performance spacer fabrics with orthogonal 3D structure	E 137		
Hot melt adhesives in electrostatic flocking of plastic composites.....	E 134		
Improving odor properties of natural fibers for technical textiles.....	E 114		
Knitted structures in medical textiles.....	E 60		
Medical applications of electrospun nanofibers	E 16		
Melt-electrospinning of nano-nonwovens.....	E 242		
Overlap-free joining of semi-finished textile products	E 68		
Plasma process for hydrophobization of surgical textiles.....	E 142		
Polylactic acid fibers: biomedical applications	E 245		
Pressure and strain sensors based on electrically non-conductive Novonic yarns.....	E 174		
Self-strengthening PP composites	E 181		
Software for quality and productivity improvements.....	E 268		
Spacer circular knit fabrics with specific physical properties.....	E 126		
Spunbond nonwovens with crimping ability – process development.....	E 244		
Stitches and loops as linking elements for textile and non-textile materials.....	E 140		
Surface modification of PP nonwovens	E 270		
Tarpaulins – improvement of tear propagation resistance	E 257		
Textile reinforced rubber components with increased heat dissipation	E 256		
Textile solar light collectors – conductive structures to optimize antistatic textiles (Part 1).....	E 22		
Textiles release medicinal gases.....	E 187		
Tires – high-tech anti-skid protection....	E 31		
Weft knitted spacer fabrics as pressure sensors	E 124		
Wet-laid process – opportunities and possibilities for new products (Part 1-3)	E 32, E 66, E 144		
Textile Industry			
2009 – exciting year for technical textiles	E 191		
Chemical fiber production: Japan	E 78		
Fiberfill shipments: USA	E 236		
Global carbon fiber capacity	E 77		
Global chemical fiber production	E 75		
Global nonwovens markets 2012.....	E 238		
Global PP yarn structure: titer range, market share, end-uses....	E 74		

Subject Index	Page	Page	Page
Global spunbond capacity 2009.....	E 158	PA tire yarn shipments: USA.....	E 236
Industry news.....	E 3-E 8, E 42-E 47, E 55, E 74-E 84, E 154-E 160, E 194-E 200, E 235-E 240	Processing technologies for technical textiles at IMB 2009.....	E 39
Management.....	E 8, E 46, E 158	Spunlace capacity 2009.....	E 240
New books.....	E 200, E 240	Synthetic industrial yarn – global market trends.....	E 154
Nonwovens fiber shipments: USA.....	E 236	Technical fibers and textiles – trends.....	E 151
Nonwovens production: PR China.....	E 160	Technical textiles – world market trends.....	E 71
