Paris, February 27th, 2019

JEC World 2019 to organise an inspiring program for aerospace professionals

JEC World, March 12-14, 2019 - Paris Nord Villepinte

For this 2019 edition, JEC World organizes for aerospace professionals a full program of conferences, round tables, dedicated showcases... to present trends & innovations where composites are at the heart of the challenges to come.

JEC WORLD 2019 AEROSPACE PROGRAM

- **1** technical conference
- **+50** innovative parts within Aero&Space planet
- **Composites exchange** workshop
- **6** Finalists for Innovation Awards
- **Pre-arranged Business meetings**
- **Aerospace Composites Circle**

The aerospace industry is one of the biggest users of composite materials, but where do the next-generation opportunities lie? How will the composites industry meet aerospace demand for higher performance materials and designs with increased functionality and technologies to enable high rate production? This is the reason why JEC World has developed a full program to address these questions linked to the aerospace industry challenges.

This full program will include technical conferences, round tables, innovative area and pre-arranged business meetings. To name a few events of this program:

- On Tuesday March 12th, one session of technical conferences focuses on **Aeronautics: technologies for the future legacy programs** with speakers from Cetim, Hexcel, Airbus, Chomarat, MTorres, Plataine, Aerocomposit...;
- on Tuesday March 12th, the Agora stage hosts the **Aerospace Composites Circle** with an exclusive keynote presentation of Dirk Gebser from Lilium on "Call to action for a new world" followed by the Hexion conference welcoming speakers from Composyst, Hexion Research and Hübers, on 2 components Technology for Advanced Composite Epoxy Systems.
- During the three days of the show, the **Composites Exchange program** presents workshops for aerospace among which Boosting AFP material efficiency with fibre patch placement, or Innovative solid lubricant made from water soluble resin...

In terms of innovation, aerospace professionals will be able to discover more than 40 innovative parts within the **Aero&Space planet**, reducing costs and raising production rates, with workshops sponsored by Huntsman and Saint Gobain and with Toray, Porcher Industries.... As well as attend the pitches of the 10 **Startup Booster** finalists selected by Airbus, on March 12th at 11am at the Agora. Without mentioning the **Innovation awards finalists**, among which in the Aerospace Application category, Compo Tech Plus SPOL for its Composite aileron structure cured in one step, Deutsches Zentrum für Luft für primary structure for sounding rockets; in the Aerospace Process category, Applus+ Laboratories, for its automated manufacturing process; or Cecence for its fully compliant 16G Composite aero seatback... Winners will be named on Wednesday at 4pm in the Agora stage, starting with the keynote speech of **Bertrand Piccard**, initiator and Chairman of Solar Impulse Foundation.

Finally, aerospace professionals can discover within the 1.300 exhibitors some solutions, processes dedicated to their challenges, as well as join the **Composites in Action for Aerospace** presenting the most recent scientific and technologic developments in this sector. And they can participate to the official business meetings program to meet with pre-qualified companies.

See you at JEC World 2019 in Paris Nord Villepinte

About JEC Group

JEC Group is the world's leading company dedicated entirely to the development of information and business connections channels and platforms supporting the growth and promotion of the composite materials industry. Publisher of the JEC Composites Magazine - the industry's reference magazine, JEC Group drives global innovation programs and organizes several events in the world, including JEC World (the foremost and world-leading international exhibition dedicated to composite materials and their applications), which takes place every spring in Paris.
