## Volume 59

## Index 2009

### Author Index

Author Index	Page	Author Index	Page
<b>Aksit, A.</b> , Onar, N., Erdem, N., Erdogan, Ü.H.: Structural and electrical properties of PP nanocomposite filaments.....	27	<b>Fa-Xue Li</b> , Jian-Yong Yu, Shuai Zhang, Shiyang Zhao, Yuan Tian: Preparation of cellulose/soy protein isolate blend biofibers via direct dissolving approach .....	106
<b>Beyer, S.</b> , Scheidemann, R., Scholz, M., Uden, I., Wilkehl, R.: Engineering – how an idea becomes a marketable end product.....	220	- Jian-Yong Yu, Shuai Zhang: Dissolution of cellulose in LiOH complex aqueous solution and preparation of regenerated cellulose fiber .....	169
<b>Changjun Zhu</b> , Jie Chen, Kunjing Yu, Yadan Feng, Yimin Qin: Effect of carboxymethylation on the properties of SeaCell Active fibers .....	108	<b>Fa-Xue Li</b> , Jian-Yong Yu, Yan-Li Ma, Jing-Fang Qian: Effects of heat-setting on properties of biodegradable polybutylene succinate-co-butylene terephthalate (PBST) fibers.....	172
- Jie Chen, Mohsen MirafTAB, Yimin Qin: Chitosan fibers with enhanced antimicrobial properties .....	154	<b>Fuchs, H.</b> : Wilhelm Albrecht – a life for man-made fibers .....	188
<b>Cheng, L.-D.</b> , Gao, X.-L., Xue, W.-L.: Hollow design of hollow fiber and its finite element model .....	33	<b>Furter, R.</b> , Kretzschmar, S.D.: Process optimization in a filament yarn plant .....	42
<b>Clough, N.E.</b> : Innovations in ePTFE fiber technology: capabilities, applications, opportunities.....	215	<b>Gao, X.-L.</b> , Xue, W.-L., Cheng, L.-D.: Hollow design of hollow fiber and its finite element model .....	33
<b>Dasaradan, B.S.</b> , Ramachandran, R.: Surface modification of PP nonwovens for value added applications .....	232	<b>Gries, T.</b> , Popescu, C., Ratke, L., Hacker, C.: Solution spinning process for highly porous, nanostructured cellulose fibers.....	85
<b>De Breuck, H.</b> : Monofilaments for medical applications.....	92	- Thomas, H., Möller, M., Jungbecker, P., Hacker, C.: Melt-electrospinning of nano-nonwovens .....	229
<b>Dong-Po Xin</b> , Xiao-Hong Qin: Air content of PAN nanofiber nonwovens by different electrospinning processes .....	115	<b>Gudiyawar, M.Y.</b> , Kane, C.D., Redekar, R.: Properties of polyester/viscose blended air-jet textured yarns .....	176
<b>Driscoll, P.</b> : Fiber raw materials .....	57	<b>Hacker, C.</b> , Gries, T., Popescu, C., Ratke, L.: Solution spinning process for highly porous, nanostructured cellulose fibers.....	85
<b>Effenberger, F.</b> : Paul Schlack – a life for Perlon .....	189	- Gries, T., Thomas, H., Möller, M., Jungbecker, P.: Melt-electrospinning of nano-nonwovens .....	229
<b>Erdem, N.</b> , Erdogan, Ü.H., Aksit, A., Onar, N.: Structural and electrical properties of PP nanocomposite filaments .....	27	<b>Hart, D.</b> : Prospects for the global spandex (elastane) fiber industry.....	36
<b>Erdogan, Ü.H.</b> , Aksit, A., Onar, N., Erdem, N.: Structural and electrical properties of PP nanocomposite filaments .....	27	<b>Jian-Yong Yu</b> , Shuai Zhang, Shiyang Zhao, Yuan Tian, Fa-Xue Li: Preparation of cellulose/soy protein isolate blend biofibers via direct dissolving approach .....	106
<b>Fahrioglu, Z.</b> : Recycling is just the beginning of sustainable development – the case for PET fiber .....	114	- Shuai Zhang, Fa-Xue Li: Dissolution of cellulose in LiOH complex aqueous solution and preparation of regenerated cellulose fiber.....	169
		- Yan-Li Ma, Jing-Fang Qian, Fa-Xue Li: Effects of heat-setting on properties of biodegradable polybutylene succinate-co-butylene terephthalate (PBST) fibers .....	172
		<b>Jie Chen</b> , Kunjing Yu, Yadan Feng, Yimin Qin, Changjun Zhu: Effect of carboxymethylation on the properties of SeaCell Active fibers .....	108
		- Mohsen MirafTAB, Changjun Zhu, Yimin Qin: Chitosan fibers with enhanced antimicrobial properties.....	154
		<b>Jing-Fang Qian</b> , Fa-Xue Li, Yan-Li Ma, Jian-Yong Yu: Effects of heat-setting on properties of biodegradable polybutylene succinate-co-butylene terephthalate (PBST) fibers.....	172
		<b>Jungbecker, P.</b> , Hacker, C., Gries, T., Thomas, H., Möller, M.: Melt-electrospinning of nano-nonwovens.....	229
		<b>Kane, C.D.</b> , Redekar, R., Gudiyawar, M.Y.: Properties of polyester/viscose blended air-jet textured yarns .....	176
		<b>Keser, H.</b> : New ultra high speed separator roll .....	46
		<b>Knobelsdorf, C.</b> , Lützkendorf, R., Schmitt, M.: Chances and opportunities for new products applying the wet-laid process Part 3: Role of pulp in wet-laid nonwovens.....	90
		<b>Korobczuk, M.</b> , Singh, S.P.: Filament yarn markets – current titer segmentation and applications bifurcation.....	166
		<b>Koslowski, H.-J.</b> : Dornbirn 2009: new fibers for applications .....	121
		<b>Krautwurst, B.</b> , Laukhardt, F.: Pilot and laboratory equipment for technical materials .....	112
		<b>Kretzschmar, S.D.</b> , Furter, R.: Process optimization in a filament yarn plant .....	42

Subject Index	Page	Page	Page
Structural and electrical properties of PP nanocomposite filaments .....	27		
Techtextil preview .....	95, 96		
<b>Fiber Production</b>			
Air content of PAN nanofiber nonwovens by different electrospinning processes .....	115		
Brief information .....	174		
Company information .....	174		
DIO spinning plant for filament yarns...	175		
Dissolution of cellulose in LiOH complex aqueous solution and preparation of regenerated cellulose fiber.....	169		
Dosing equipment for spunbonds .....	99		
Effect of carboxymethylation on the properties of SeaCell Active fibers.....	108		
Effects of heat-setting on properties of biodegradable polybutylene succinate-co-butylene terephthalate (PBST) fibers .....	172		
Engineering – how an idea becomes a marketable end product.....	220		
Engineering companies: project list of new polymer and chemical fiber plants 2009 .....	100		
Filament yarn markets – current titer segmentation and applications bifurcation.....	166		
Innovative Minibox conditioner .....	171		
Integrated plant engineering: comprehensive engineering .....	165		
Laboratory piston spinning unit for spinning of small polymer quantities..	219		
Low inlet pressures and high viscosities – gear pumps for tough industrial applications.....	163		
Mercury-free melt pressure transducers with high-precision measurement.....	171		
New method for moistening of BCF yarns .....	222		
New PP BCF spin finish for modern high-speed extrusion lines .....	226		
New ultra high-speed separator roll .....	46		
Pilot and laboratory equipment for technical materials .....	112		
Polyester BCF carpet yarn lines.....	53		
Preparation of cellulose/soy protein isolate blend biofibers via direct dissolving approach .....	106		
Process optimization in a filament yarn plant .....	42		
Recycling is just the beginning of sustainable development – the case for PET fiber.....	114		
RITM: Major innovations in technical yarn twisting and cabling.....	98		
Spin finishes for polyester filament and fiber application.....	38		
Tecnon Orbichem: Polyamide 8 Intermediates Conference.....	224		
WINGS for coarser PET yarn .....	219		
WINGS for polyester POY production ...	111		
<b>Texturing</b>			
Brief information.....	177		
Company information .....	177		
Properties of polyester/viscose blended air-jet textured yarns .....	176		
World market trends for draw-texturing machines .....	136		
<b>Nonwovens</b>			
Brief information.....	231		
Company information .....	231		
Effect of carbonization temperature on the structure of carbon nanofiber nonwovens by electrospinning.....	50		
Feasibility study of spunbonds plants considering the product width .....	48		
Melt-electrospinning of nano-nonwovens.....	228		
Process development to produce spunbond nonwovens with crimping ability.....	230		
Recycled polyester spunbonds.....	231		
Surface modification of PP nonwovens for value added applications .....	232		
<b>Research</b>			
Air content of PAN nanofiber nonwovens by different electrospinning processes .....	115		
Chances and opportunities for new products applying the wet-laid process .....	90		
Chitosan fibers with enhanced antimicrobial properties .....	154		
Comparison of structure and properties between polylactide and polyethylene terephthalate fibers .....	212		
Composition and structure of acrylonitrile based casein fibers .....	88		
Dissolution of cellulose in LiOH complex aqueous solution and preparation of regenerated cellulose fiber .....	169		
Effect of carbonization temperature on the structure of carbon nanofiber nonwovens by electrospinning.....	50		
Effect of carboxymethylation on the properties of SeaCell Active fibers.....	108		
Effects of heat-setting on properties of biodegradable polybutylene succinate-co-butylene terephthalate (PBST) fibers .....	172		
Elastic mechanism and development trends of textile elastic fibers .....	210		
Filament yarn markets – current titer segmentation and applications bifurcation.....	166		
Hollow design of hollow fiber and its finite element model .....	33		
Insight to probable mechanism of hydrolytic degradation of PBO fiber .....	30		
Internal structure and elastic recovery of PTT/PET self-crimping fibers.....	208		
Melt-electrospinning of nano-nonwovens.....	228		
Preparation of cellulose/soy protein isolate blend biofibers via direct dissolving approach .....	106		
Process development to produce spunbond nonwovens with crimping ability.....	230		
Properties of polyester/viscose blended air-jet textured yarns .....	176		
Recent developments in PLA fibers .....	152		
Solution spinning process for highly porous, nanostructured cellulose fibers.....	85		
Structural and electrical properties of PP nanocomposite filaments .....	27		
Surface modification of PP nonwovens for value added applications .....	232		
<b>Fiber Industry</b>			
Anti-dumping tariffs on high-tenacity polyester filament yarns.....	186		
Brief information.....	5-12, 62, 64, 68, 72, 130, 184, 186, 190, 191		
Company information .....	5-12, 62, 64, 68, 72, 130, 132, 184, 186, 190, 191		
Dornbirn 2009: new fibers for technical applications .....	121		
Dornbirn 2010: fibers, automotive textiles and nonwovens.....	192		
Engineering companies: project list of new polymer and chemical fiber plants 2009 .....	100		
Fiber raw materials .....	57		
Global fiber production: polyester expansion only in China.....	125		
In memoriam: Hermann Klare on the occasion of his 100 <sup>th</sup> birthday.....	133		
International fiber trade journal report.....	76, 196		
International news.....	13-16, 73-76, 137-140, 193-195		
ITMA Asia + CITME in Shanghai 2010 .....	12		
Management .....	10, 70, 132, 133, 192		
New books for the chemical fiber industry.....	140		
New books for the fiber and textile industry.....	196		
New drop shape analysis system .....	94		
New jumbo winder for carbon fibers .....	191		
New patents on fibers and fiber technology .....	18-19, 78-79, 142-143, 198-199		
New products for the fiber industry .....	76

		Global PP spunbond capacity 2009 .....	135
		Global spunlace capacity 2009.....	231
		India: increasing nonwovens production .....	73
		Nonwovens from Trevira CS .....	5
		Nonwovens industry: PP and viscose fibers dominate.....	6
		Textextil 2009: innovative technical textiles and nonwovens.....	8
		Thermobonding fibers for nonwovens ...	11
		USA: fiber shipments for nonwovens ...	195

## Editorial Program 2010

Volume 60

Issue	Main Topics	Conferences/Trade Shows
<b>1 March</b> Publication date <b>March 8, 2010</b>	Industry news; New fiber patents; Fiber raw materials; Cellulosic fiber specialties; PET & PP fibers; Textured yarns; Elastic fiber developments; Nonwovens technologies	<b>Grass Yarn &amp; Tufters Forum 2010</b> , Feb. 9-11, 2010, Vienna/Austria <b>IDEA 2010</b> , April 27-29, 2010, Miami Beach, FL/USA <b>4th European Nylon Symposium</b> , May 7, 2010, Frankfurt/Germany
<b>2 May</b> Publication date <b>May 28, 2010</b>	Industry news; New fiber patents; Fiber raw materials; Polyamide fibers; Fibers for nonwovens; Fiber technology; ITMA Asia + CITME 2010 preview; 60 years of fiber publication	<b>EATP Spring Conference</b> , May 31-June 1, 2010, Warsaw/Poland <b>PEPP Chain 2010</b> , June 14-16, 2010, Zurich/Switzerland <b>ITMA Asia + CITME 2010</b> , June 22-26, 2010, Shanghai/PR China
<b>3 September</b> Publication date <b>September 9, 2010</b>	Industry news; New fiber patents; Fiber raw materials; Technical fibers; Global fiber market; K 2010 preview; Project list chem. fiber plants; World trade texturing machines	<b>Man-Made Fibers Congress Dornbirn</b> , Sept. 15-17, 2010, Dornbirn/A <b>IFAI Expo</b> , Oct. 27-29, 2010, Orlando, FL/USA <b>K 2010</b> , Oct. 27-Nov. 3, 2010, Düsseldorf/Germany
<b>4 December</b> Publication date <b>December 2, 2010</b>	Industry news; New fiber patents; Fiber raw materials; Synthetic fiber specialties; PP fiber technology; Spin finishes; Fiber technology; Texturing technology	<b>Polyester Chain 2010</b> , December 13-15, 2010, Zurich/Switzerland
